

IN THE SENATE OF THE UNITED STATES.

MARCH 3, 1893.—Ordered to be printed.

Mr. MANDERSON, from the Committee on Printing, submitted the following

REPORT:

[To accompany House concurrent resolution authorizing the printing of a new edition of the special report of the chief of the Bureau of Statistics of the Treasury Department, relating to wool and the manufacture of wool, published by order of Congress in 1888, with the matter contained therein brought down to date, 3,000 for use of the Senate, 6,000 for use of the House, and 2,000 for distribution by the Bureau of Statistics of the Treasury Department.]

The Committee on Printing, to whom the above concurrent resolution was referred, having considered the same, report it back with the recommendation that it do pass.

The committee is informed by the Department that the demand for this report has been so large as to exhaust the supply and that the demand continues. Considering the value of the report, touching one of the most important industries of the country, and that it is useful to both producer and manufacturer, the committee are of the opinion that a new and revised edition should be printed.

The cost will be \$3,014.
